

# CROWDFUNDING

concept

Thousands of people have managed to fund a wide range for-profit entrepreneurial venture such as artistic and creative projects, medical expenses, travel, or community-oriented social entrepreneurship projects using the help of others. As you can see this concept isn't new, It has being used for a quite long time, actually.

One person has an idea for a venture... A Great idea. A project that REALLY deserves to be funded ... To take off. This entrepreneur asks for the help of many others to fund it. People who identify themselves with the project and hence, help to make it real... while funding does not depend on location, there's no need for the person giving the money to know personally the entrepreneur in order to like and to believe in his dream and, consequently, to help. In the occasion of a reward-based Crowdfunding the donor receives a token in return to his money.

The token could go from something as little as a sample of the product produced, or a ticket for the show funded or it could even be nothing. The donor could well be happy only with the gratification of knowing that the he is doing his part in society, helping somebody else to live their dream.

# PERSONAL CROWDFUNDING

concept

On the other hand, What if you could achieve your PERSONAL dreams? Your wishes, things that you need at the moment... A very specific dream... A trip, a wedding party... to pay off all your debts... anything ...Do you think other people would support you? That they would help you financing it? ... That they would help your personal Crowdfunding?

The answer lays on the fact that people care for one another... People give (donate) all the time. They give (donate) money to whom they don't know personally. They give affection for those in need ; they give part of their precious time all the time as long as they believe it is going to do them good as well as to do good to others.

Imagine several people contributing small sums, change money, fractions of their earnings and then, these little bits coming all together to become a substantial amount of money, enough money to fund YOUR great venture...

All coming together with the purpose to achieve that very thing you have striven for your whole life. That you have always dreamed of... it could be anything at all.

# WHAT DO PEOPLE GET IN RETURN?

They get to create their own personal Crowdfunding and therefore, to receive money from others in order to fund their own projects. Join in the Crowdfunding they help people to achieve their goals and are helped too.

“What Goes Around Comes Around.”

It is such an awesome idea that it might make you wonder “How have I not done it before!”

# DOES THAT WORK?

As it was said before, Crowdfunding has been used to fund wide range for-profit entrepreneurial ventures around the world.

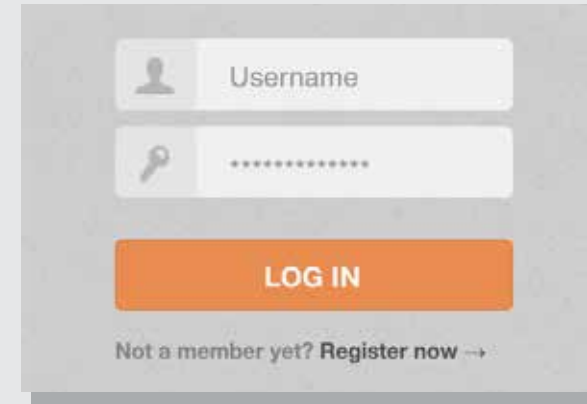

Every and each of us have personal goals and dreams to be accomplished. We all have this in common and THAT is what bond us all together in the pursue of greatness.

Finally, we have reached the crux to make everything fall into place: I help to fund somebody's dream, and get the opportunity to have mine becoming reality. Even so, if all that I wish for is to help others.

# HOW DOES THAT WORK?

Firstly, you need to create a profile in our website in order to validate your participation you have to donate a small bitcoin sum to a list of 6 names. These are people who have donated prior to you.

The amount you have to donate to each of them is 0,0070 bitcoins, which stands for approximately €5.00 (five Euros) (daily currency fluctuation may occur). Hence, the 6 donations will be a total of 0,042BTC, approximately €30.00 (thirty euros). Once you have donated, you will receive an e-mail confirmation with a link to your virtual office from where you will be able to keep a close eye on all donations that will be made to you. You will also receive the link you will use to invite people to join the list you now belong to. You will now join in the list in the 6th position.

“So, will I be entitled to only 6 donations?”

## Definitely Not!

This procedure starts from the moment a person enters the list after you and, it continues with the people that will join in the list subsequently. That will happen to all the people below you, hence it's very important that you spread the word. That you talk to as many people you can about your link.

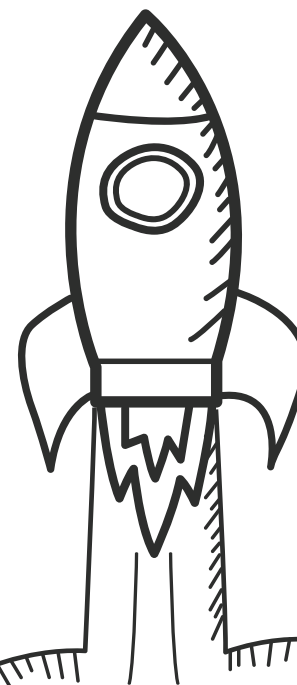

# WHAT DO I DO NOW?

Now is the time to send your link to the four corners of the world (list). Invite friends, Family, co-workers, the more the merrier. The more people you invite the greater the chances you have to get the funds you need to have your personal project done.

## DO IT NOW!

# HOW MANY PEOPLE WILL I NEED?

Bear in mind that the number of people who actually will fund your project isn't easy to predict, let's say that you and the people below you send an number of invitations and that all of you had the same number of people join in.

“ Each and every dream and project is different, the sky is the limit. ”

# TAXES AND FEES

Firstly, there aren't any taxes due to be paid when you join Donationtoyou.com. However, you will have to donate again to the 6 names in your list.

That will happen every time you receive 0,70BTC, which stands for approximately €500, via the system. So, when it comes the time you have to donate again the 30E for the 6 names on your list it means you have profited €500. Not bad, isn't?

Secondly, there is a small fee every month of 0,0015BTC, equivalent to approximately €1. This is an administration fee.
